Classic View: CA State Reporting > Monthly Attendance Register

Search Terms: Monthly Attendance Register

The Monthly Attendance Register report shows student attendance data during School Months created in the school calendars. Users can select specific grade levels and specific attendance categories to report.

Students marked as present for at least one attendance-taking course scheduled in an instructional period during a school day count as present for the whole day.

Monthly Attendance Register Report

School months must start on a Monday and be four weeks long. For more information on

creating School Months, see the [School Months for California](#) article.

Report Logic

All students who have the same Service Type/Track Jumper status enrolled in the selected calendar at any time during the selected School Month(s) report.

- Student Type - Primary Enrollment (default) reports all students who have enrollments with a Service Type of Primary
- Student Type - Partial Enrollment reports only those students who have enrollments with a Service Type of Partial and have a CALPADS Enrollment Status selected
- Student Type - Track Jumper reports only those students who have the Track Jumper checkbox marked in their Primary enrollment

Students not report when:

- Their enrollment is marked as State Exclude.
- They are enrolled in a grade level marked as State Exclude.
- They are enrolled in a calendar marked as State Exclude.
- Their enrollment in the selected calendar is marked as No Show, unless they have a subsequent active enrollment that begins during the same School Month.

Students do not report until they are 5 years old.

- If a student turns 5 before December 2 and the student has an active TK flag, they report average daily attendance from the beginning of their enrollment. The TK Flag start date or Eligibility Start Date must also start before December 2 of the active school year.
- If a student turns 5 during the school month selected in the extract editor and it is after December 2, and the student has an active TK flag, the average daily attendance reports only for the days on or after the student's birthday. The TK Flag start date or Eligibility Start Date must also start before December 2 of the active school year. If the student's birthday is after December 2, the student does not report as a gain or a gap gain.
- If a student has a TK flag AFTER December 2, the student reports from the start date of the TK flag.
- If a student has an enrollment start date AFTER December 2 and an active TK flag, the student reports from the start date of the TK flag. If the enrollment date is before the TK flag date, the student reports from whichever date is later - enrollment start date, TK Flag Date or Birth Date.

Students in all State Grade Levels report if All Grade Levels is selected. Otherwise, only students in the selected grade levels report.

Student data is grouped by School Month. All students who have an active enrollment for at least one instructional day within the selected School Month report.

- Within a School Month grouping, records are grouped by Attendance Funding Category.
- Within the Attendance Funding Category grouping, records are grouped by District of Apportionment.

- Within a District of Apportionment section, records are grouped by grade level.

Attendance Funding Category reports based on the selected reporting period.

- If School Month 1 is selected, the Attendance Funding Category on the enrollment for that time period reports.
- If there is more than one Attendance Funding Category in one school month, all categories report. Enrollment start dates determine the attendance time for the categories.

Students who change Grades, Attendance Funding Categories, District of Apportionment, or Service Types report multiple times.

- Students who change grades only during a school month report twice in the section, one line for each grade level.
- Students who change Attendance Funding Category and/or District of Apportionment during a School Month report in each section.
- Student who change Service Type during a School Month report in both reports.

A student only reports once if the enrollment record has an End Status of 440.

Courses marked as ASES do not report. The ASES course Types that do not report are as follows:

- A1 - Before School Base
- A2 - After School Base
- A3 - Before School Supplemental
- A4 - 3-hour After School Supplemental
- A5 - 6-hour After School Supplemental
- Not Funded - ASES Not Funded

Attendance Present or Absent

A student is counted as Present for the entire day if he/she is present in at least one attendance-taking course section in an instructional period. Present means:

- No attendance code in the period.
- An attendance code in the period with a Status of Present or Tardy and any excuse.
- An attendance code in the period with a Status of Absent and an Excuse of Exempt.

A student is counted as Absent for the entire day if he/she is absent in ALL attendance-taking course sections in instructional periods. Absent means an attendance code with a Status of Absent and an Excuse of Excused, Unexcused or Unknown.

Days Taught is a count of all days in the School Month that are marked as School Day, Instruction and Attendance on the Calendar tab. Days not marked for all three are not considered Instructional Days. Days within the range of Exclude Start Date and Exclude End Date for School Months are ignored even if they are marked as School Day, Instruction and Attendance.

Day Code Logic

The following values report when data meets the listed descriptions.

Value	Description
H	Reports when the day is not considered an Instructional Day.
B	Reports for any new enrollment with the first day of presence within the time frame (School Month) selected on the extract editor. This includes grade level changes.
L	Reports for any ended enrollment with the last day of presence within the time frame (School Month) selected on the extract editor. This includes grade level changes.
-	Reports when the day is counted for apportionment.
N	Reports when the student is not actively enrolled in the selected calendar on a day, assuming the student has an active enrollment in the same funding category and district of apportionment later in the school month.
/	Reports when the student changed grade levels within the school month. This reports as two lines in the sections for the days after the end of the first enrollment and the days before the start of the second enrollment report.
#	Reports when the student is actively enrolled in the selected calendar with the appropriate service type/AFC/DofA but is not on the roster of at least one attendance-taking course scheduled into an instructional period.
\$	Reports when the student has an active enrollment in the selected calendar or subsequent enrollment with a different attendance category or service type in the same School Month for the days when the student was enrolled but had a different service type.

An Attendance Code Legend prints on the second to last page of the report when generating the report in PDF format. This list of Attendance Codes includes the values above plus additional values based on the [attendance codes](#) used at the school and/or district.

Legends of Attendance Codes:

H: Non-Instructional Day.
 B: First day of apportionment in an enrollment.
 L: Last day of apportionment in an enrollment.
 -: Day is counted for apportionment.
 N: Not Enrolled this day.
 I: Grade level change.
 #: Student enrolled but not scheduled into a course.
 S: Student enrolled but in a different Category or Service Type.
 U5: Student is under 5 years old.
 ACT: Activity
 CLR: Tardy/Clr
 CUT: Cut

Monthly Attendance Register

DET: Detention
 DLE: Distance Learning - Excused
 DLL: Distance Learning - In Lieu of In-Person
 DLU: Distance Learning - Unexcused
 EXC: Excused
 EXO: Excused - PH
 HH: Home Hosp
 HHC: Home Hospital Confirmed
 IH: Inhouse
 ILL: Illness
 IMD: Illness Medical Note Received
 ISC: Independent Study Contract Completed(Counted as apportionment)
 ISN: Incompl Wrk
 ISP: Independent Study Pending
 OTH: Other
 POS: Positive
 SC: School Closure - Emergency Conditions
 SN: Snow Day Power/Roads
 SO: Site Other
 SS: Served SS
 SUS: Suspended
 UNV: Unverified
 UNX: Unexcused
 XCLM: Excluded Failure to Comply Mask Mandate

Attendance Code Legend in PDF Format

Report Editor

Field	Description
Attendance Category	Determines the attendance reporting group into which the student falls. Categories are selected on student Enrollment records. Select one or more categories as needed; an option for All Categories is available to include all options.
Choose Grades	List of state grade levels of enrollment. Select All Grades to include enrollment data from all grade levels at the Calendar/School selected in the Campus toolbar.
Ad hoc Filter	Allows a pre-existing ad hoc filter to be chosen to further narrow the results of the students included in the report. For example, the MAR may need to be generated for a particular race/ethnicity. Creating a filter that only pulls that information can be selected here, so the results of the MAR only return students in the selected grade level, attendance category and a particular race/ethnicity. This allows for LCAP reporting.

Field	Description
Select School Month	Select one school month from which to report attendance data. As noted above, School Months must start on a Monday and be four weeks long. If a school month does not start on a Monday, it cannot be selected.
Sort By	The report can be sorted by Grade level or Student Name.
Student Type	Select the type of enrollment to include: <ul style="list-style-type: none">• Primary Enrollments (not Track Jumpers)• Track Jumpers• Partial Enrollments
Format	The report can be generated in PDF or CSV format.

Generate the Report

1. Select the desired **Attendance Category** from the list.
2. Select the **Grade levels** of students to include in the report.
3. Select the appropriate **Ad hoc Filter**, if desired.
4. Select the **School Month** to include in the report.
5. Choose whether to sort by **Grade** or **Name**.
6. Select the **Student Type** from the dropdown list.
7. Choose the **Format** in which to display the report.
8. Click the **Generate Report** button. The report appears in the selected format, displaying attendance information for the selected students.

The report can also be generated using Batch Queue functionality, where the report is not generated until a specified time. Instead of selecting Generate Report, select Submit to Batch. See the [Batch Queue](#) article for more information.
