CRAFT Screening Conducted Date and CRAFT Screening Results

The CRAFT is a seven-item instrument that is a research-validated tool recommended by the national alcohol and drug organization due to its sensitivity and specificity of identifying adolescents who need intensive substance abuse treatment. CRAFT is an acronym derived from the words in this questionnaire:

- Have you ever ridden in a **C**ar driven by someone* (including yourself) who was “high” or who had been using alcohol or drugs? *Other than parent/guardian
- Do you ever use alcohol or drugs to **R**elax, feel better about yourself, or fit in?
- Do you ever use alcohol or drugs while you are **A**lone by yourself?
- Do your family or **F**riends ever tell you that you should cut down on your drinking or drug use?
- Have you ever gotten into **T**rouble while you were using alcohol or drugs?

Only complex and/or school personnel who have been formally trained are allowed to administer the Adolescent Screening Interview Tool.

The CRAFT Screen Result, or score, is based on a student's answers to the questions above. Each "yes" response scores 1 point. Users are able to enter this score in the Screening Result drop-list.

Behavior Notifications

If a student is suspended from school for more than ten days, it is required that CAS review and approve the extended suspension.

Student Behavior Tab

The Student Behavior tab provides a history of the student’s behavior events, both positive and negative. This collection of student information can be used to review an individual's participation in behavior incidents, such as in a conference with parents. Information about other participants is not included in this tab. Behavior records do not lock and can be edited at any time.

Incidents appear in date order grouped by the calendar of enrollment. Any outstanding detention time and all suspension days assigned to the student based on the Duration in School Days field on the Resolution editor are totaled at the top of the tab.

When the [Behavior Preference](#) to lock completed discipline incidents is set to Yes, a lock icon

displays next to those records in the Behavior list.
