The KIDS Collection MILT Extract reports student enrollment data for districts whose student population significantly increases after the September 20th (ENRL) funding count due to military movement.

KIDS MILT Editor

## Report Logic

See the [KIDS Collection Extracts](#) article for general reporting logic.

Students who are dependents of active, full-time military personnel enrolled and attendance on February 20 and not included in the September 20 district count are reported. Students must have a Military Connected Status of 1: Student is a dependent of a member of the armed duty forces, to report (Student Information > General > Enrollments > Military Connected Student). If students were

included in the September 20 count, they are not included in the MILT extract.

Only enrollments that are active within the reporting range and have a start date that is AFTER September 21 of the start year of the selected calendar are included in the extract. If the enrollment start date and end date fall on the dates of the reporting range, those enrollments are included.

Students do not report when:

- The Enrollment record is marked as State Exclude or No Show.
- The Calendar of Enrollment is marked as State Exclude.
- The Grade Level of Enrollment is marked as State Exclude.
