The Teacher and Student Connection (TASC) data collection is used to report a connection between students and teachers for use in creating rosters in other Kansas applications like K-FIT.

KIDS TASC Extract

Report Logic

Only one record per student per course/section reports. Students must have a State ID number in order to report. Students with state, grade or calendar exclude marked do not report.

Records are not reported when the student has dropped the course/section.

Generate the Report

1. Enter the **Effective Date** in *mmddyy* format or by clicking the calendar icon and selecting a

date.

2. If desired, select a **Student Ad Hoc Filter** from the dropdown. Only students included in the selected filter are included on the report.
3. If desired, select a **Course Ad Hoc Filter** from the dropdown.
4. Select the **Format** from the dropdown. Available formats include State Format (Tab Delimited), HTML and CSV.
5. Input the **Maximum Records Per File** into the field. The default is 20000. When a number is added to this field, only that number of records are returned. Multiple files should be generated to accommodate all reporting records.
6. Select which **Calendar(s)** to include in the report.
7. Click **Generate Extract**.
