Search Terms: Assessment Status Calculation Tool

This tool calculates the assessments reported in the HSSC and Student Record Card 3 reports and stores Assessment status values in the Calculated Assessment Status tab (Student Information > General > Calculated Assessment Statuses). The Reported Assessment Calculator determines whether the student took one of the following assessments and calculates the status of these assessments: MHSA Math, MHSA ELA, MHSA Science, and MHSA Government.

Assessment Status Calculation Tool Example

Assessment Calculations

Use the Assessment Status Calculation Tool to calculate Assessment Statuses for assessments that report in the HSSC extract and Student Record Card 3. Run the Assessment Status Calculation Tool BEFORE generating those reports.

The Assessment Status Calculation Tool calculates based on the options you select on the extract editor.

When a student has multiple assessments that meet the calculation criteria, the tool will only

update the student one time.

Report Editor

Field	Description
Effective Date	To report, students must have an Enrollment Start Date that is on or before the date selected in this field.
Second Semester Start Date	The Second Semester Start Date is used to identify 16: Second Semester Transfer Students. If left blank, that status is not calculated. Each time the Reported Assessment Calculator function is run, all existing values in the database for the Calculated Assessment Status tab are overwritten. You can overwrite the calculated assessment status values manually in the custom tab or via the Assessment Status Override tool. The Calculated Assessment Status tab should be updated prior to generating HSSC or Student Record Card 3.
Format	The format in which Campus will create the report. Options include HTML and CSV.
Assessment To Calculate	Select assessment(s) to calculate.
Select Students	Select students by choosing one or more grade levels or a saved ad hoc filter. • **Grade** - Only grade levels from schools active in the selected calendars display. Only students in the selected grade levels report if they meet the reporting requirements. • **Ad Hoc Filter** - Only those students included in the filter report if they meet the reporting requirements.
Select Calendar(s)	The calendar(s) from which data is pulled for the report.

Field	Description
Run/Submit to Batch	Users have the option of submitting the report request to the batch queue by clicking **Submit to Batch** instead of **Run**. This process allows larger reports to be created in the background without disrupting the use of Campus. For more information about submitting a report to the batch queue, see the Batch Queue article. A **Calculated Assessment Results** report.
