The SMART CTE Submission reports each program listed on the student's CTE record that meet the entered data on the extract editor.

SMART CTE Submission

Report Logic

The CTE Submission reports each CTE program record listed on a student's CTE tool that was active during the reporting window, based on the entered Program Start and End Dates. Information is reported in the summer for the previous school year.

Report Editor

Field	Description
Extract Type	Selection determines which extract generates. For this instance, select **SMART CTE Submission.**
Reporting Period Start Date	Entered date determines the time frame of the extract, reporting only that student data as of that date. Dates are entered in mmddyy format or can be chosen by using the calendar icon.
Reporting Period End Date	Entered date determines the time frame of the extract, reporting only that student data as of that date. Dates are entered in mmddyy format or can be chosen by using the calendar icon. The end date field is auto-populated with the current date.
Students without state IDs	When marked, students who are not assigned a state ID are returned, in addition to those students who do have a state ID.
Ad hoc Filter	When selected, only those students in the filter are included on the selected SMART extract.
Format	SMART Extracts generate in either HTML format or in CSV format (state format).
Calendar Selection	Selection indicates from where the data is pulled.
Report Generation	Use the **Generate Extract** button to display the results of the extract immediately.
