Example Report Editor

Best Practices

- For a normal suspension code which excludes a student from class for the day without excluding them from the BEDS/SAMS report, set up the local code with a Status/Excuse of Absent/Exempt. This affects the student's instructional time in Staff Student Course, while not counting as an absence on Student Daily Attendance or SAMS/BEDS.
- Separate codes ought to be set up with the appropriate Status/Excuse for students who are

absent or tardy when serving a suspension in order to correctly capture the data across the various reports that consider attendance.

Reporting Logic

- Reports one record per student per calendar day for an attendance code with a status code of PRSNT-IN, PRSNT-OUT, T-IN, T-OUT or Absent.
- If Whole Day Absent Minutes is not checked on the extract editor, an **Absent** attendance code reports for the day if every scheduled instructional period has a Status of Absent and an Excuse of Excused or Unexcused (or Unknown if Use Unknown Absences is checked on the extract editor).
- If Whole Day Absent Minutes is checked on the extract editor, an **Absent** attendance code reports for the day if the minutes in scheduled instructional periods with a Status of Absent and an Excuse of Excused or Unexcused (or Unknown if Use Unknown Absences is checked on the extract editor) meet or exceed Whole Day Absence minutes entered on Calendar or the student's Grade Level.
- If different **Absent** codes are used in one day, report from the earliest code with the first Excuse in the following list:
 - Excused
 - Unexcused
 - Unknown
- A **Tardy** attendance code reports if the a scheduled instructional period has a Status of Tardy and an Excuse of Excused or Unexcused (or Unknown if Use Unknown Absences is checked on the extract editor) AND the Tardy is assigned to the first scheduled instructional period OR all previous scheduled instructional periods have a Status of Absent.
- A **Suspension** state code reports if every scheduled instructional period has an attendance code with an associated State Code. A suspension record will report in addition to the absent, Present or tardy record.
 - If a record includes suspension, one of the following reports.
 - OSS
 - ISS
 - If a suspension record is reported, one of the following also reports.
 - Absent
 - PRSNT-IN
 - PRSNT-OUT
 - T-IN
 - T-OUT
 - If a mixture of ISS and OSS State Codes are used in one day, OSS reports.
- Reports one PRSNT-IN record per student per calendar day when
 - an attendance code with a status code of Present and no state code is present where the student is not in a blended learning group that is scheduled remotely for that period, OR
 - a period without an attendance code where the student is not in a Blended Learning group that is scheduled remotely for that period, OR
 - the attendance code is mapped to a state code of PRSNT-IN.
- Reports one PRSNT-OUT record per student per calendar day when
 - an attendance code with a status code of Present and no state code is present where the student is in a Blended Learning group that is scheduled remotely for that period,

- OR
 - a period without an attendance code where the student is in a Blended Learning group that is scheduled remotely for that period, OR
 - an attendance code is mapped to a state code of PRSNT-OUT.
- Records do not report for students if their enrollment has one of the following Local Start Statuses (called an Enrollment Code in the SIRS Manual).
 - 0033 - Part-time students pursuing diploma
 - 4034 - Pre-school aged student enrolled solely for determining eligibility for determining special services
 - 5654 - Enrollment in an AHSEP program
 - 5555 - Student enrolled for the purpose of recording a test score (walk-in)
 - 5905 - CSE or CPSE responsibly only
 - 8294 - School aged children on the roster for census purposes only
- Reports one ENS (Enrolled Not Scheduled) record per student per calendar day when the student is enrolled but is NOT scheduled into any attendance-taking courses.

Extract Editor Field Descriptions

Field	Description
Extract Type	The SIRS Extract to be generated.
Start Date End Date	The first and last date on which the report looks for attendance events. The report only includes attendance events found between the Start and End date entered here.
Included State Grade Levels	Identifies the state grade levels to include in the report.
Format	The Format in which the report should generate. Options are State Format (CSV) and HTML. Use State Format for reporting information to the state and the other types for data review and verification.
Ad Hoc Filter	Selecting a filter limits the results to only those included in the filter. The following extracts do NOT use this field: Attendance Code, Day Calendar, Location Marking Period Code, and Marking Period Code.
Column Headers	Indicates whether Column Headers should be included in the report. This dropdown list applies to State Format (CSV).
Whole Day Absent Minutes	When Whole Day Absent Minutes is checked, the report will look for students whose absent minutes equal or exceed the Calendar > Whole Day Absence (minutes) number, to report as absent for the day. When Whole Day Absent Minutes is NOT checked, students must be absent in every instructional period on their schedule to report.

Field	Description
Use Unknown Absences	When Use Unknown Absences is checked, Absence and Tardy codes where Excuse = Unknown are calculated. When Use Unknown Absences is NOT checked, Absence and Tardy codes where Status = Excused and Unexcused are calculated.
Ignore Enrollment State Exclude	When Ignore Enrollment State Exclude is checked, enrollment records with "State Exclude" selected ARE included.
Generate Extract/ Submit to Batch	Users have the option of submitting a report request to the batch queue by clicking Submit to Batch instead of immediately generating the report by clicking Generate Extract . The batch process allows larger reports to generate in the background without disrupting the use of Campus. For more information about submitting a report to the batch queue, see the Batch Queue article.
Select Calendars	Identifies which Calendar(s) should be included in the report. Calendars can be sorted by active year, by school or by year.

Extract Layout

Element	Description	Location
DistrictCode	The identification number of the district. The prefix "NY" is added to the district number. For example, if the district number is 662001, the District Code is NY662001. Numeric, 8 digits	System Administration > Resources > District Information > District Number District.number
LocationCode	The code that identifies the location for reporting purposes. Alphanumeric, 12 characters	System Administration > Resources > School > School > Location Code CustomSchool.value
Student ID	The student's Local Student Number. Alphanumeric, 12 characters	Census > People > Demographics > Person Identifiers > Local Student Number Person.studentNumber

Element	Description	Location
AttendanceDate	<p>The date of the attendance: Absence, Present, Tardy, or In or Out of school suspension.</p> <p>Any date where the student is not enrolled within the date range will not report. Any date where the student is not scheduled in an attendance-taking course will report.</p> <p>Date field, 10 characters YYYY-MM-DD</p>	<p>Student Information > General > Attendance</p> <p>Attendance.date</p>
AttendanceCode	<p>This field reports blank.</p>	<p>N/A</p>
