The Statistical Summary report, formerly the Entries, Gains and Losses report, extracts student data by grade level regarding the number of students who entered a school, enrolled in a school and left a school. The report is due Quarter 1-4 and End of Year.

The screenshot shows the 'Statistical Summary' configuration page. It includes sections for 'Report Options' and 'Select Calendars'. The 'Report Options' section contains various dropdown menus and checkboxes for configuring the report. The 'Select Calendars' section shows a list of schools for the 21-22 school year.

Report Options:

- Reporting Period: Quarter 3
- Start Date: 09/01/2021
- End Date: 11/15/2021
- Grade Level Sort Order: FOSR/ASR
- Format: PDF
- Report Order Format: Campus Default

Statistical Summary Report

Report Logic

- Only students with a Transportation Start Date that falls on or within the extract Date range

are included in the transportation section of the report.

- Student counts may only be duplicated in the Entire Period field, which will occur when students are OHP1-4 and enrolled in one of the calendar's grade levels.
- No Show enrollments do not report.
- Enrollments marked as State Exclude will not be included in calculations.
- Day counts for Transportation and Attendance data is reported based on the specific enrollment active on each day.

Only students with a SIF Admission (Student Information > General > Enrollments > SIF Fields > Admission) value of the following are included: OHP1, OHP2 , OHP3, OHP4, R, OT, RVON, RVOFF, FOY, and TO.

- If the student is assigned an Admission code that is NOT one of the above, the days are not counted for that student's enrollment.

Attendance Logic

The report returns attendance data for the selected reporting period (quarter or semester) for the selected calendars. Attendance is calculated as follows:

- **Present** when the total instructional minutes in the day is greater than **200**.
 - Attendance for the AM (first half of the day) is calculated by finding all periods with a Start Time that is on or before the first half of the day (instructional minutes divided by 2).
 - If the student was present 120 minutes or more within the first half of the day, that student is counted as present.
 - Attendance for the PM (second half of the day) is calculated by finding all periods where the End Time is on or after the last half of the day (instructional minutes divided by 2).
 - If the student was present 120 minutes or more within the last half of the day, that student is counted as present.
 - Period minutes are counted for all periods where the student is not marked as Absent or Absent/Exempt.
 - If the student is Absent or Absent/Exempt but a value other than 0 is entered for their Present Minutes on the Attendance tab, those minutes are also counted.
 - If present minutes fall in both halves of the day, present minutes are split evenly between the two day halves.
- **Present** when the total instruction minutes in the day is **200 or less**.
 - The student must be present for at least 120 instructional minutes in the entire day to be considered present for both AM and PM half-day periods.
 - Period minutes are counted for all periods where the student is not marked as Absent or Absent/Exempt.
 - If the student is Absent or Absent/Exempt but a value other than 0 is entered for their

Present Minutes on the Attendance tab, those minutes are also counted.

- **Absent** when the total instructional minutes in the day is greater than **200**.
 - Attendance for the AM (first half of the day) is calculated by finding all periods with a Start Time that is on or before the first half of the day (instructional minutes divided by 2).
 - If the Half Day Absence (Minutes) field on the student's Grade Level is populated (or on the Calendar if null), reports as absent if the student was absent for more than that many minutes. Otherwise, if the student was present for less than 120 minutes within the first half of the day, that student is counted as absent.
 - Attendance for the PM (second half of the day) is calculated by finding all periods where the End Time is on or after the last half of the day (instructional minutes divided by 2).
 - If the Half Day Absence (Minutes) field on the student's Grade Level is populated (or on the Calendar if null), reports as absent if the student was absent for more than that many minutes. Otherwise, if the student was present for less than 120 minutes within the last half of the day, that student is counted as absent.
 - Period minutes are counted for all periods where the student is not marked as Absent or Absent/Exempt.
 - If the student is Absent or Absent/Exempt but a value other than 0 is entered for their Present Minutes on the Attendance tab, those minutes are also counted.
- **Absent** when the total instruction minutes in the day is **200 or less**.
 - If the Whole Day Absence (Minutes) field on the student's Grade Level is populated (or on the Calendar if null), reports as absent if the student was absent for more than that many minutes. Otherwise, a student present for less than 120 instructional minutes in the entire day is considered absent for both AM and PM half-day periods.
 - Period minutes are counted for all periods where the student is not marked as Absent or Absent/Exempt.
 - If the student is Absent or Absent/Exempt but a value other than 0 is entered for their Present Minutes on the Attendance tab, those minutes are also counted.

Transportation is only reported for days that the enrolled student had an active transportation record.

Field	Description
-------	-------------

Field	Description
Reporting Period	The term period from which data is extracted. Options include the following: <ul style="list-style-type: none"> • Quarters 1-4 • Semesters 1-2 • End of Year
Start Date	The date on which the reporting period begins.
End Date	The date on which the reporting periods ends.
Grade Level Sort Order	Determines how records are sorted by grade level. Options include the following: <ul style="list-style-type: none"> • FQSR/SAR: reports based on the Code selected for the Grade Level. • Grade Name: reports numeric grades first, then alphabetically. • Grade Sequence Number: reports numerically by sequence.
Format	Generate the report in PDF, CSV, or HTML format.
Report Order Format	Determines what report layout generates. <ul style="list-style-type: none"> • The Campus Default option groups attendance/membership data AFTER the Transportation data. • The State Order option groups attendance/membership data first and matches the report layout the state provides, and allows for easier reconciliation of the data.
Ad hoc Filter	Limits students reported to those in an existing Ad hoc Filter .
Display Converted Grades	If selected, an additional page is included in the report that displays the student's converted grade level, which is their grade level relative to their age on September 1 of the school year. The following grade levels report: <ul style="list-style-type: none"> • PK3: Students who were age 3 on 9/1 and enrolled in a State Grade Level of PK3F, PK3H, PK4F, or PK4H. • PK: Students who were age 4 on 9/1 and enrolled in a State Grade Level of KG or KG/H. • KG: Students who were age 5 on 9/1 and enrolled in a State Grade Level of 01.
Display Totals Page	Generates an additional page providing totals by calendar.
Select Calendars	At least one calendar needs to be selected in order to generate the report. Reports can be selected by Active Year, School or Year.

Field	Description
Report Generation	The extract can be generated immediately using the Generate Report button. Or, use the Submit to Batch button to select when the report is generated. See the Batch Queue article for more information on this functionality.

Generate the Report

1. Select the **Reporting Period** from the dropdown list.
2. Enter the **Start Date** for the report.
3. Enter the **End Date** for the report.
4. Select a **Grade Level Sort Order**.
5. The extract generates in *PDF* format by default. Select a different **Format** (*CSV* or *HTML*) if desired.
6. Select the desired **Report Order**.
7. Select an **Ad hoc Filter** to limit students reported.
8. Mark **Display Totals Page** to generate the report with an additional page at the end that provides totals summarized by calendar.
9. Select the **Calendar(s)** to include in the report.
10. Click the **Generate Report** button to view the report in the selected format or **Submit to Batch Queue** if desired.
