## Teaching Center

### Video

(Still set with existing embed/iframe code. Width and height set to 100%)

From the Teaching Center, teachers can quickly view current tasks for their assigned course sections. In this video, teachers will learn how to use various Instruction tools from the Teaching Center.

## Information

**PATH:** *Instruction > Teaching Center*

The Teaching Center provides a hub for a variety of common teacher tasks. Current day attendance and assignments to be scored are sorted by period. Access to additional tools are available for teachers in districts with Campus Learning.

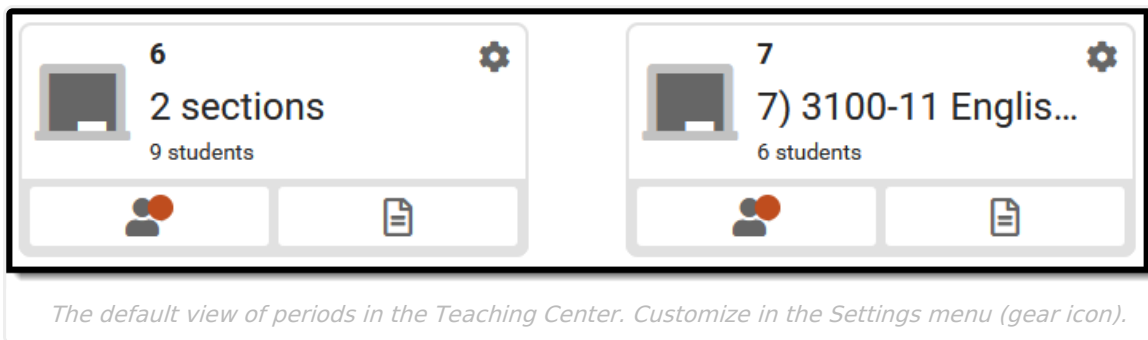

This tool has been optimized for use on mobile devices, such as phones and tablets.

Prior to the release of Campus.2227, this tool was called the "Control Center."

*Use the Teaching Center to take attendance and score assignments easily, as well as other common tasks.*

The calendar name displays at the top of the Teaching Center, followed by a dash and the Term. Navigate between terms using the arrow buttons at the top right. Sections are grouped by period into tiles for each classroom. If one section meets during the period, the Course Number - Section Number and the Course Name display. If multiple sections meet during a period, the number of sections is listed, as show in the image below.

Buttons display for each period that open side panels to take attendance and score assignments. Additional buttons may display for teachers with Campus Learning.

Additional options may display based on tool rights and district setup.

### Discussions

If you have tool rights to Discussions, a button displays with a speech bubble icon. Click this button to view the [Discussions](#) tool in a side panel. From there, view student responses and reply. Use the discussions tool itself to create discussions, or create [scored discussions](#) in the assignment editor.

### Questions

If your district has enabled Student Questions and you have turned it on in the Settings for a section, a button displays with a hand icon. Click this icon to view questions students have ask and respond. See the [Student Questions](#) article for more information about enabling and using this feature.

Sections that meet in other days of a day rotation are listed at the bottom, if applicable. The Teaching Center does not obey context of the School and Calendar selected so that teachers can view information for everywhere they teach. Assignments with a due date in the current term are displayed.

## Classroom Settings

Click the gear icon at the top right of each period to customize that tile.

In the Settings menu, customize the name of the classroom. This name only displays here in the Teaching Center, it does not appear anywhere else in Campus, for you or your students.

The **Included Sections** list includes all sections that meet during this period.

Customize the icon that displays for each period by selecting an icon and color. A Preview of what the icon looks like displays.

Click **Save** to apply your changes.

## Taking Attendance

Attendance that has NOT been taken is indicated by a gray check next to the student icon. Completed attendance is indicated with a green checkmark. Click the student icon, the first one in each tile, to enter student attendance.

**AP Literature - 4**  
Period 1

STUDENT	12	1	1	
<b>Student, Andy</b>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
<b>Student, Jordan E</b>		<input checked="" type="checkbox"/>		<span style="border: 1px solid green; border-radius: 10px; padding: 2px 5px;">ABE</span>

Save
Close

Indicate if students are Present, Absent, or Tardy.

Mark the **P**resent, **A**bsent, or **T**ardy buttons to record student attendance. Click  to enter a comment for absences and tardies if applicable. Comments display in [Campus Student](#) and [Campus Parent](#). A count of all present, absent, and tardy students displays above the attendance buttons.

Click **Save** when finished.

If attendance has been recorded by the attendance office, the attendance code displays with any comments, which cannot be edited by the teacher.

Tip: If a student is in multiple sections in the same period (such as skinnied courses) the student is only listed once in the attendance list.

## Blended Learning/Virtual Attendance

Beginning in the fall of 2020, Campus supports Blended Learning scheduling, which allows schools to create groups of students to rotate through in person and virtual instruction. Based on a variety of [Virtual Attendance Preferences](#) managed by the school or district, teachers may see a variety of options for recording virtual attendance.

Depending on Blended Learning groups, students in a section are divided into **Physical** and **Virtual** sections. The options for recording virtual attendance vary based on district setup:

### Virtual Attendance Scenarios:

- Teacher cannot record virtual attendance at all. In this scenario, attendance is processed through administrative tools and teachers can still record regular attendance.
- Teachers can mark students as **Participated**.
- Students record their own participation through attendance **Check-Ins** in [Campus Student Parents](#) may also have the option of checking in for their students, such as for elementary age students. A green circle with a checkmark displays for students who checked in.
- Students/Parents can **check in**, but teachers can override by unmarking the **Participated** checkbox.

NOTE: Depending on district setup, unmarking Participated may cause a student to be marked as absent. This checkbox is not just an indication of whether a student spoke up during an online discussion.

American Literature (A) - 4		Physical	
Period 05			
STUDENT	4	0	0
Student, Benjamin B	<input checked="" type="checkbox"/> P	<input type="checkbox"/> A	<input type="checkbox"/> T
Student, Isabel P	<input checked="" type="checkbox"/> P	<input type="checkbox"/> A	<input type="checkbox"/> T
Student, Ryan R	<input checked="" type="checkbox"/> P	<input type="checkbox"/> A	<input type="checkbox"/> T
Student, Samantha	<input checked="" type="checkbox"/> P	<input type="checkbox"/> A	<input type="checkbox"/> T
American Literature (A) - 4		Virtual	
Period 05			
STUDENT	4	CHECK-IN	PARTICIPATED
		2	2
Student, Lindsey		<input type="checkbox"/>	<input type="checkbox"/>
Student, Natalie	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
Student, Olivia	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
Student, Roger		<input type="checkbox"/>	<input type="checkbox"/>

*Record Physical and Virtual attendance.*

Note: Participation information, including Participation Comments, is not visible in [Campus Student](#) and [Campus Parent](#). For Virtual Attendance, students and parents can only see whether the student checked in and if the teacher unmarked the Participated checkbox after the student checked in. Within Campus, participation information is visible in the [Classroom Monitor](#), the [Section Attendance](#) tool, and in Ad hoc Reporting.

## Scoring Assignments

The Assignments icon allows teachers to score assignments due on or before the current day. To display, an assignment's End Date must be within the current Term.

In the panel that opens, unscored assignments are listed by default. Click **All** to view all assignments in the section or **Missing** to view assignments flagged as missing.

Three numbers display for an assignment.

- **Turned In:** The number of assignments that have been turned in and have not been scored.
- **Assigned:** The number of students who were assigned the work but have not yet been scored.
- **Scored:** The number of students who have scores for the assignment.

When all students have been scored, the assignment is removed from the **Unscored** list.

*Unscored assignments are listed by default, with options for All and Missing assignments.*

Click on an assignment to score it. The scoring window that displays depends on the size of the device you're using and whether the assignment has submissions enabled.

If submissions are enabled, the [submission scoring screen](#) displays. For assignments where submissions are not enabled, clicking an assignment to score it opens the full [scoring editor](#) used elsewhere in Campus Instruction.

On a small device like a phone, a simple scoring editor displays.

Using the buttons at the top, view **All** students (including those with scores), only **Unscored**, or those flagged as **Missing**. Click  to view [Score Analysis](#) for the assignment.

The screenshot shows a mobile interface for scoring an assignment titled "Themes Worksheet - Bildung...". At the top, there are filter buttons for "All", "Unscored", and "Missing", along with a "Show" button and a list icon. Below this is a "Fill Scores" section with a "Score" input field set to "/10". The main area lists individual students with their names, due dates, and scores:

- Student, Andy**: Due: 05/22/2019, Score: 11 /10 (shaded blue)
- Student, Jordan E**: Due: 05/23/2019, Score: 9 /10
- Student, Kyle M**: Due: 05/22/2019, ABE flag, Score: /10
- Student, Luke C**: No score or flag visible.

At the bottom, there are "Save" and "Close" buttons. A caption below the screenshot reads "Score and flag assignments."

- **Filling Scores:** Fill options display at the top of the scoring panel. Anything entered in the Fill Scores area overwrites data entered on the current panel.
- **Scoring Individuals:** Scores and flags can also be recorded for individual students. Enter numeric scores or select a score from the dropdown for assignments scored using Marks or Rubrics.
  - Assignments with multiple alignments display with multiple score fields.
  - Scores that include extra credit are shaded blue.
  - If students have individualized due dates, a Due Date displays for each student. Otherwise, the Due Date displays at the top.
  - Any attendance events on the due date are indicated.
- **Flags:** Click  to add flag and comment fields to each student. Click the **Turned In** button or use the flag dropdown list to select a different flag. Once a flag is selected, click it to remove it. Keyboard shortcuts, such as typing 'M' to flag as missing, cannot be entered in the Teaching Center. The Turned In and Missing flags cannot be marked

at the same time. If a score is entered for an assignment flagged as missing, options display for resolving the flag.

# Student Information

*Click on a student's name to view contact and schedule information.*

Click on a student's name to open the student information panel.

Basic information about the student is listed at the top, with sections for additional information.

If the student has a [health condition](#), an icon displays with a link to additional information.

If your school is using Blended Learning, the students blended learning group also displays.

Section	Description	Example Image
Contact Information	Contact Information is based on the student's <a href="#">Household</a> . The emergency contact priority is shown below the individual's name, if entered.	
Today's Schedule	The student's schedule is listed with Room numbers. The section where the student is currently scheduled is indicated with a border.	
Grades	Grades are only shown for the current section, from which the student's information was accessed.	

Section	Description	Example Image
Attendance	Attendance is shown for the current month, for this section only. Absences and tardies are totaled in the legend at the bottom. Scroll within the calendar to view other months.
