About Product Types

Product Types are assigned to Products and to Fund Accounts. When a product is purchased, funds are deposited into the bank associated with the Fund Account to which you assigned the Product Type.

Important Information About Product Types

- Product Types are not unique for each school. Once a Product Type is added, it is available to every school in the district.
- You cannot delete a Product Type if it's tied to an active product in the Inventory. However, you can edit the Product Type.
