

# Demographics Landing Page - VK

Last Modified on 08/06/2025 12:59 pm CDT

Only use introductory paragraphs when setting context is not possible via the boxes on the landing page. It is not necessary to use all the Diataxis categories on every landing page (i.e. if there is not Explanation content, do not add that category).

## Getting Started

- Actual documents titled "Getting Started" that tell users what they need to do before using this tool
- Prerequisites (things that have to happen before using this tool)

## How-To

Doc articles that say how to do things

## Tutorial

- Videos that tell how to do a thing
- Simulations

## Explanation

- Definitions
- Explanations (Personal Info in [Demographics](#) article - explains what all the fields are and lists ad hoc fields. Explanation or Reference?)
- Workflows?
- Overview Videos

## Reference

- Tool Rights
- Logic tables

## Next Steps:

- What
- What
