

POC 3 UPDATE - Add Student Course Requests

Last Modified on 03/24/2026 1:49 pm CDT

Tool Search: Schedule

This guide explains how to add the course request list to the student's schedule using the Walk-In Scheduler.

Counselors add course requests when working with students to plan their schedules for the current or next school year. This process is also used when scheduling a student for a Cross-Site Enrollment course.

Before you start

- This task is done in a future calendar. Ensure a school and future calendar is selected in the Context Switcher.
- Students need Enrollment records for the year in which requests are being entered. Requests can be entered for the current year or future years.
- Requests are part of the Scheduling process. Review the Scheduling Center list of tasks for appropriate items that need to be completed during this time.
- Review the student's Academic and Graduation Plan for appropriate courses planned for future years.
- See the Student Schedule Tool Rights article for the necessary tool rights.

Add Requests

The screenshot shows the 'Add Requests' panel in the Infinite Campus system. The panel is divided into several sections:

- Requests Panel:** Contains a table of course requests. The table has columns for 'COURSE NAME', 'UNITS', 'TYPE', and '#'. The requests are categorized into 'UNSCHEDULED' and 'SCHEDULED'.

COURSE NAME	UNITS	TYPE	#
UNSCHEDULED			
ART I 11011504	2	E	1
BOYS BASKETBALL 00001	4	A	2
SCHEDULED			
INTEGRATED SCIENCE 61491138 - 10	4	E	1
CHEMISTRY 61241308 - 1	4	E	2
INT MATH II 41011208 - 1	4	E	3
ENGLISH III 26121308 - 6	4	E	4
GLOBAL STUDIES 63311108 - 3	2	E	5
- Add Requests Panel:** Contains a search bar with the text '410' and a list of course suggestions. The suggestions include 'INT MATH I', 'INT MATH II', 'MATHEMATICS', 'ALGEBRA I', and 'ALGEBRA 1.5'. The 'INT MATH II' suggestion is highlighted with a green checkmark.

Add Requests Panel

1. From the **Requests** panel, click the **Add Requests** button. An **Add Requests** panel displays

with a list of active courses in the selected calendar. Courses that are not marked active are not included.

2. Search for courses by typing in a course number or a course name.
3. When the desired course is found, click anywhere within the course area to add the course to the schedule (or click the **blue plus** sign). A green message displays, indicating it's been added to the list of requested courses. The added course also displays in a list of **Unscheduled courses**, meaning the course has not yet been added to the student's schedule.
4. Repeat steps 1-3 as needed.
5. When finished adding course requests, click the **Done** button in the Add Requests panel. The Add Requests panel closes.

Impact

Course requests are visible in the student portal when that display option is enabled. There may be a window of time during which a student can modify these requests, depending on school guidelines. Students can only modify alternate requests and elected requests.

Print a PDF of the student's Requests for reference. This can also be printed from the student portal.

Additional Tasks

Quick Add Requests

This option allows for entry of memorized course numbers to the Requests panel. This is a useful option when a new student enrolls in the district, for example. A counselor can quickly add courses the student must take, then use the other request options to fill in the schedule.

Keyboard shortcuts are not available when using Quick Add.

Requests

Scheduling Units: $\frac{6}{32}$

Add Requests

Requests

Effective Date

Quick Add

	COURSE NAME	UNITS	TYPE	#	
	UNSCHEDULED				✖
	Skills Seminar A I (Academic) 0003	2	R	1	✖
	Advisory 0000	4	R	2	✖

Quick Add Student Requests

1. From the **Requests** panel, click the down arrow next to the **Add Requests** button and select the **Quick Add** option. A **Quick Add** panel displays within the Add Requests panel.
2. Enter a **Course Number** in the search field. Matching courses display with the name and the number of units.
3. Hit the **Enter** key to add the course to the Unscheduled Course Requests list.
4. Repeat steps 1-3 as needed.
5. Click the **Done** button in the Add Requests panel to close the panel.

Add Planned Courses

This option only displays when the student has a Graduation Program assigned and courses added to their Course Plan, and no other courses listed in the Requests panel. Courses planned for the 11th grade year are added when the student is enrolled in 11th grade (e.g., current year planning).

It may be helpful to generate the [Course Plan Report](#) prior to adding the courses.

1. From the **Requests** panel, click the down arrow next to the **Add Requests** button and select the **Add Planned Courses** option. All courses for that planned year are added to the Request panel.
2. Modify the requests by changing the course type as needed.

What's next

After requests are added, Curriculum directors, counselors, and/or schedulers can use the Scheduling Board to build courses and load the entered requests into the courses for the next school year.
